A. Trench finish treatment, replace in kind per City Standard Trench detail, unless other approved;

B. Notify the City 48 hours in advance of construction related street closures for arrangements with the Fire and Police Departments;

C. Contractor is responsible to notify utilities prior to street cut & provide signing/traffic control. Contact One-Call Notification Center at 1-800-332-2344;

D. If use is determined to be in violation of the permit issued, the permit may be revoked administratively;

E. The sewer connection must be inspected and receive approval by the City of Coos Bay ***before*** the work can be covered. All inspections must be scheduled 24 hours in advance; and,

F. Prior to final inspection, compliance with CBMC 12.20.040 is required and restoration of the right of way must be to as good condition as existed before the work was undertaken.

G. Sewer Caps: The sewer shall be disconnected at the property line or as approved by the city. The sewer shall be plugged with a mechanical plug. No concrete grout or mortared plugs will be allowed.

****If the work is not inspected and approved by the City of Coos Bay, you will be required to re-excavate and provide access for the inspection. The Bond will be forfeited in the event this is not done.***

As the owner/authorized agent, I state that I have read and understand the conditions for using and doing work within the right of way. I further state that this permit is for the purpose stated and no other. I also understand that I am responsible for the quality of work and the liability resulting for said work.
