**SPECIFICATIONS OF BUILDING AND SEWER DEMOLITION WORK**

Contractor to tear down and carry away all of the materials comprising the building, including all foundation and other walls excepting \_\_\_\_\_. **After work is completed, the site shall be left clean and free of ALL debris and filled, contoured or otherwise made safe from accidental falls into holes, shafts or other man made voids and depressions.** Except as may be exempted above, all concrete shall be removed from the site.

Buildings constructed prior to 1990 may contain asbestos. **Prior to any demolition it is the owners responsibility to have an asbestos survey conducted by an accredited inspector per DEQ regulations.** Local DEQ contact is Martin Abts 269-2721 ext 222.

For any building or structure scheduled for demolition, the connection to the City's sanitary sewer system shall be exposed and plugged in the following manner :

Upon request of the Oregon Utility Notification Center (800-332-2344), the Engineering Division will mark the location of the disposal end of the City sewer. The sewer from the demolished structure shall be disconnected at the point of connection into the City sewer. The City sewer shall then be plugged with a mechanical plug. No concrete grout or mortared plugs will be allowed.

If the demolished structure is connected to a septic tank, please contact the State of Oregon Building Codes Division at 541-396-2148 to either removed the tank or abandoned it in place.

This permit becomes null and void if work or construction authorized is not commenced within **180** days, or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
